

Mini Satin Steel

Faults—Stray white hairs; brassy, brownish, or yellow tint; body color too dark due to insufficient gold tipping; solid color patches without tipping; white belly color; slight ring color on the lower part of the body.

Note: All Steels compete together

STEEL—(Gold Tipped) (Black, Blue, Chocolate, Lilac) – The entire body is to be of the basic color description, with color running as deep as possible. The coat is to be interspersed with a moderate amount of gold tipping. The tipping is to form a uniform steel color over the entire body without intermediate banding. The nape of the neck and around the nostrils is to match the surface color or match the tipping color. The upper tail color is to match the surface color and the underside of the tail and belly are to match body color as closely as possible, but lighter color is permissible.

Eyes—Black and Chocolate to be Brown; Blue and Lilac to be Blue-Gray.

Insert for 2026-2030 ARBA Standard of Perfection

*Eligible to be entered in all ARBA sanctioned shows as exhibition animals. May **NOT** compete for Best of Breed/Best in Show*
