

Broken Satin Angora

The Broken Satin Angora shall meet all points of the standard for Satin Angoras as defined in the ARBA Standard of Perfection.

The Broken Satin Angora will be judged by the Angora color standard as listed for the Broken group in the ARBA Standard of Perfection.

Color is to include white in combination with any accepted Angora color., It is to have both ears colored, eye circles, nose marking [No preference is given to butterfly over evenly balanced nose spots.], and back pattern. The back pattern may be in the form of a blanket [Color starting at the nape of the neck, continuing over the back and sides, and well over the back of the hips.] or spotted [individual colored spots evenly distributed over the back, sided and hips.], with preference given to the balance of pattern. Coloration is at least 10%, but not more than 50% colored. **Eyes** - Color to correspond to the colored variety requirement.

Faults - One or more colored toenails; unbalanced or one spotted nose marking; faded or shallow color.

Disqualification from Competition - Absence of color on either ear, around either eye, or nose marking. Coloration less than 10% or more than 50% in the judge's opinion. Excessive scattered white hairs or silvering in colored section. Do not disqualify for white spot in colored sections. Eye color other than called for in the colored variety.
