ADA Regs regarding Service Animals

https://www.ada.gov/regs2010/service_animal_qa.pdf

Q1

Under the ADA, a service animal is defined as a dog that has been individually trained to do work or perform tasks for an individual with a disability. The task(s) performed by the dog must be directly related to the person's disability.

Q23

....However, if a particular service animal behaves in a way that poses a direct threat to the health or safety of others, has a history of such behavior, or is not under the control of the handler, that animal may be excluded.

Q27

The ADA requires that service animals be under the control of the handler at all times.....The service animal must be harnessed, leashed, or tethered while in public places unless these devices interfere with the service animal's work or the person's disability prevents use of these devices. may not allow the dog to wander away from her and must maintain control of the dog

This means that there will be no barking, whining, no signs of aggression (including low growling and baring teeth), no service dogs not under the DIRECT control of the handler, no disruptive behavior, etc. Your service dog must be leashed, harnessed, or tethered at all times and you must be in CONSTANT control of the leash.

Best In Show Judging:

Best in show rabbits will be chosen at the end of the day after the completion of all shows. If you cannot stay for the conclusion of the last show, please arrange to leave your BOB animals with a friend for the BIS competitions.
